St Mary's

Church of England Primary School

4th October 2019

Dear Year 1 Parents and Carers,

This week we have been learning about conserving electricity and water. We really want to look after God's creation. If we use too much energy. We're worried that there won't be any left.

We have been busy doing lots of learning about our world.

This week have written instructions for saving energy. We also read a story about a magpie that had rubbish in his nest and it went in the water and the animals' homes, but then he took the rubbish away to a recycling bin instead.

We went to Oak Hill Park to see all the wonderful things in the world and then we painted them. We wrote some sentences about what is nice about the world and then went on the iPads and we drew signs to show what we should do to save energy e.g. not leaving a light on.

Yesterday, we went around the school turning whiteboards, taps and lights off. We checked bins and made sure doors and windows were closed. We were Power Rangers!

We are writing to you to tell that you we are still a bit worried. We would like to make signs for things we should do at home. We would like to:

- turn the lights and the taps off when we're not using them
- close the windows and put jumpers on if it is cold instead of putting the heating on.

We hope you can help us with all of this.

From Year 1
