

## St. Mary's Pupil Premium Statement 2017-18

**Pupil Premium Funding: £43,980**

**Proportion of Cohort: 14%**

**Number of disadvantaged Pupils: 30**

**Pupil Premium Lead: Maria Constantinou**

St. Mary's School is restless in its pursuit of excellence. We are a school where everyone is welcomed, efforts are valued, ambition is nurtured and where the potential of every child is realised. We are committed to providing the highest quality education for all children regardless of background or barrier to learning, in every aspect of school life.

At St. Mary's we understand that challenging socio-economic circumstances can create additional barriers to success for children. However, we are clear that these challenges can be overcome. The evidence base strongly suggests that **the most effective way to improve outcomes for disadvantaged children is through excellent classroom teaching**. Excellent classroom teaching can be achieved by all teachers with high quality professional development, sharing of outstanding practice and open and honest conversations about learning. **All children** need opportunities to enrich their lives through experience. Where children are unable to access opportunities these through home, we seek opportunities to provide them through school.

Although financial support is provided for schools specifically for children who qualify for Pupil Premium, outstanding educational outcomes for these children are best achieved through ensuring outstanding practice in classrooms **throughout the school**. In this way all vulnerable children are helped to achieve the best possible outcomes according to their starting points. Research and evidence about tackling educational disadvantage means that we must first identify barriers to learning. We have conducted an analysis of barriers to learning for disadvantaged pupils in our school and identified the following barriers for many of the eligible children.

- A language deficit - both a gap in vocabulary and a lack of ability to manipulate language for effect. This is evident, both from a speech and language perspective in addition to the quality of children's written work.
- Emotional wellbeing - which can impact on behaviour for learning and readiness to engage and achieve well.
- Limited Cultural Capital and enrichment - lack of experience limits language and understanding
