**Policy to promote the successful inclusion of pupils with
Special Educational Needs and Disabilities
2022/23**

VISION

At St. Mary's, inspired by Christian values, we are excited by our learning, proud of our achievements, determined to be the best we can be and caring for all God's creations.

VISION IN CHILD SPEAK

I am inspired by gospel values, excited about my learning, proud of my achievements, determined to be the best I can be, caring for all of God's creations.

MISSION

- **Through excellent teaching we will deliver an inspirational curriculum**
- **We will enable every child to make the very best progress**
- **We will work in partnership with children and families to further promote confidence and self esteem**
- **We will prepare children to confidently face the challenges of growing up in the 21st Century**
- **We will provide children with an understanding of local, national and global communities and faiths.**
- **With St Mary's Church, Brookside Methodist, and other local churches, we will further develop understanding of gospel values in action through worship and across the curriculum**

Safeguarding Statement of Intent

St Mary's Church of England Primary School is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment. Every pupil should be able to participate in all school activities in an enjoyable and safe environment and be protected from harm to their mental or physical health or development. This is the responsibility of every adult employed by or invited to deliver services at the school. We recognise our responsibility to safeguard and promote the welfare of all our pupils by protecting them from physical, sexual or emotional abuse, neglect and bullying.

St Marys Church of England Primary School is committed to safeguarding and promoting the welfare of children and young people through rigorous application of Safer Recruitment processes. All applications for staff positions in the school are thoroughly vetted in accordance with policy. DBS checks are undertaken for all staff and for volunteers who work on a regular basis in school.

1. SEND Roles and Responsibilities:

- The SENCO for the school is Michelle Williams, who holds the Post Graduate, National Award for Special Educational Coordination.
- The Inclusion Leader for the school is Maria Constantinou, who is the school's Headteacher. Mrs Constantinou also holds a Post Graduate Certificate in Special Educational Coordination and is a Specialist Leader in Education for SEND.
- The governor with responsibility for overseeing SEND is Stefan Grzesiczek.

The SENCO's responsibilities include:

- Coordination of provision for children with SEND
- Positive promotion of the school's policy for SEN and disability
- Working collaboratively with pupils, parents, staff and Governors to ensure the most appropriate interventions and outcomes for those children identified as having special needs
- Advising on a graduated response of assess, plan, do, review and organising opportunities for parents to become involved in this process where possible.
- Overseeing and updating the records and monitoring the progress of all children on the register
- Liaison with and referral to external agencies, including the LA's support and educational psychology services, health and social services and voluntary bodies
- Liaising with staff from other schools, where children have come from/are going to.
- Organization and monitoring of resources including the use of the delegated budget
- Producing and publishing the school's SEND offer which sets out information about the school's SEN policy and its implementation.
- Assessing pupils in school.

The Inclusion Leader's responsibilities include:

- Membership of the leadership team
- Organization and management of SEND infrastructure in accordance with school budget and high needs funding
- Management of teaching assistants supporting children with SEND
- Supporting whole school and individual behaviour management
- Overseeing the management of children with medical conditions including those that influence a child's SEND
- Contribution to the professional development of staff
- Acting as a designated teacher where a Looked after Child has SEND
- Supporting the SENCo to fulfil the role effectively

The SEND Link Governor's responsibilities include:

- Liaising with the SENCO
- Monitoring SEND provision
- Monitoring attainment/progress of pupils with SEND
- Monitoring the implementation of high needs funding

2. Aims, Objectives and Practice

St Mary's School strives for all children, in keeping with the Mission Statement Aims and Values, to maximise their life chances and participate as active citizens in society by experiencing a positive learning environment that:

- Has high expectations of everyone
- Values their differences
- Offers respect and dignity
- Is challenging but supportive

- Is broad and balanced

We aim to achieve this by helping children overcome barriers to learning and enabling every child to participate fully in the curriculum.

Pupils have Special Educational Need or Disability (SEND) if they have a learning difficulty that calls for special educational provision to be made for them.

Children have a learning difficulty if they:

- Have learning difficulty or disability which calls for special educational provision to be made.
- A child of compulsory school age or a young person has a learning difficulty or disability if they have significantly greater difficulty in learning than the majority of others of the same age or has a disability which prevents or hinders them from making use of facilities of a kind generally provided for others of the same age in mainstream schools.

Children will not be regarded as having a learning difficulty solely because the language spoken at home is different from the language in which they are being taught.

The specific objectives of our SEND policy are as follows:

- To identify pupils with SEND and ensure that their needs are met
- To identify the roles and responsibilities of staff in providing for children with SEND
- To ensure that children with SEND join in with all the activities of the school, as far as is reasonably possible
- To ensure all learners make the best possible personal progress
- To ensure parents/carers are informed of their child's SEND and provision and that there is effective communication between home and school
- To work in partnership with parents/carers in supporting their child's education to, express their views and are fully involved in decisions which affect their education. Additionally, that they have opportunities to evaluate and celebrate progress.
- To work in partnership with pupils with SEND to ensure that they also have a voice in shaping their support and provision, in addition to having opportunities to evaluate and celebrate progress.
- To promote effective partnership and involve outside agencies when appropriate
- To help every child realise their full potential and optimise their self-esteem.

In accordance with best practice, children with special educational needs will be taught in the classroom alongside their peers and may receive help from support staff and/or have additional/different learning materials or programmes. Where necessary, to maximize learning, children may work in small groups or in a one-to-one situation outside the classroom. Our practice is influenced and shaped by research including the [EEF Guidance Report on Supporting SEND in Mainstream Schools](#)

3. Monitoring

The success of the school's SEN and Disability policy will be judged against the aims set out above. The Governing body, together with the Senior Leadership Team, will ensure successful implementation of the policy and effectiveness of provision against the following criteria:

- That all children are meeting their potential, as far as is reasonably possible
- That class teachers feel supported by the SEND provision.
- The provision of a whole school positive learning environment.

The range of support made in the school each year in response to identified need is detailed in the Provision Map.

The Role of the Governing Body

- The Governing Body will have regard to the SEND Code of Practice and should oversee the implementation of any reforms and provide strategic support to the head teacher.

- The Governing Body will review and ratify and changes to this policy annually.

The Head teacher will report back termly to the full Governing Body in accordance with Governing Body procedures. Should any matters relating to SEND be discussed, confidentiality will be maintained, and only issues of principle and procedure will be discussed.

4. Allocation of Resources

The SENCO and Inclusion Leader are responsible for the operational management of the staffing for special needs provision within the school, including provision for children with an Education Health Care Plan (EHCP).

5. Accessibility

- The main building and the junior block have wheelchair access and there is a toilet facility for disabled pupils and staff in the junior block. Site modifications, if necessary, will be made if possible. The Governors will endeavour wherever possible to ensure that all new building complies with Disability Access requirements. See accessibility plan and policy on the school website for further information.

6. Identification and Assessment of SEND

- The school is committed to early identification of special educational needs and adopts a graduated response to meeting special educational needs in line with the Code of Practice 2014. A range of evidence is collected through the school assessment and monitoring arrangements. If this suggests that the learner is not making the expected progress, the class teacher will consult with the SENCo in order to decide whether additional and/or different provision is necessary
- A range of more specific tests may be used by the SENCo or support staff to identify difficulties with specific children. There is no need for pupils to be registered or identified as having special educational needs unless the school is taking additional or different actions. Pupils who have disabilities but no special educational needs will be recorded on the school's additional educational needs register.

There are four key areas of Special Educational Needs

1. Cognition and Learning – e.g. specific learning difficulties such as dyslexia and dyscalculia.
2. Communication and Interaction – e.g. speech and language needs and Autism
3. Sensory and Physical – e.g. physical disability, visual and hearing impairment
4. Social, Emotional and Mental Health - e.g. attachment difficulties, behavioural needs

SEN Support:

SEN Support is the category of support for children with SEN but not on EHC plans.

- It focuses the system on the impact of the support provided to that individual child, rather than how children access support according to the category they fit into.
- It places emphasises on a graduated approach (assess, plan, do and review).
- The aim is to improve the experience and outcomes of school for all pupils ensuring high quality teaching and learning.

Provision/action that is additional to, or different from, that available to all as part of the school's usual differentiated curriculum may be recorded as part of the school's provision mapping systems.

If the school has evidence that a pupil is making insufficient progress despite significant support and intervention, we may seek further advice and support from outside professionals. These professionals will be invited to contribute to the monitoring and review of progress.

Pupils and parents will be invited to be fully involved and kept informed about the involvement of external agencies and proposed interventions.

Personalised SEN Plans

- The school will work with staff, parents and pupils, in line with the 2014 SEN Code of Practice on a graduated approach of 'assess, plan, do review', whereby discussions will be had regarding on-going planning, progress reporting and decision making.
- Parents, pupils and staff working with the child will be invited to contribute to the construction, review and evaluation of individual, personalised SEN Plans. The review of these plans will take place on a termly basis.
- SEN Plans are live documents. Most SEN Plans will be in use across the curriculum; the documents serve as a helpful tool for the children, so they are reminded about their personal targets. Scaffolds and visual prompts may be provided alongside the plans to help the children in lessons e.g. if they have a target relating to key word spelling, or keeping their writing on the line, those words/visual prompts will be provided in class in many cases.
- Plans will be in place for children for most children in receipt of SEN Support and those with Education, Health and Care Plans.
- Where children have social, emotional, mental health needs, parents may agree to work with the school to create alternative personalised plans that may not be used in the same way as conventional SEN Plans.
- Parents and children are required to sign individual SEN Plans, which illustrates a commitment to work towards the agreed targets.

Statutory Assessment

- Should a child's progress, following 'SEN Support', continue to cause serious concerns, the SENCo will, following discussion, gather advice from teachers, parents/carers, advisory teachers, the educational psychologist and any other agencies as appropriate and request the Local Authority to carry out a Statutory Assessment under Section 323, Education Act 1996. Statutory Assessment will only take place if a child's needs cannot continue to be met with the resources available to the school.
- Statutory Assessment however does not always lead to an Education Health Care Plan.

Education Health Care Plans

- An Education Health Care Plan will specify the provision necessary to meet the needs of the child.
- Progress will be reviewed annually, in accordance with the LA's procedures in Annual Review meetings where all parties involved in the provision or care for the pupil are invited.
- If a pupil makes sufficient progress an EHCP may be discontinued by the Local Authority. When pupils with an EHCP are due to transfer to Secondary School, planning for this will be started in the year prior to the year of transfer. Advanced planning for pupils in Year 5 will allow appropriate options to be considered. The SENCo will liaise with staff at the secondary school (or indeed other schools) concerned to ensure that effective arrangements are in place to support pupils at the time of transfer.
- When pupils move to another school their records will be transferred to the next school within 15 days of the pupil ceasing to be registered, as required under the Education (Pupil Information) Regulations 2000.

Parents/Carers and Identification of SEND

- In addition to teachers identifying children in the normal course of their work, parents/carers are invited to express their concerns to the Class Teacher or SENCo who will arrange, if necessary, for in-school assessment.
- Parents are able to monitor their child's progress through the regular termly consultation meetings, annual reports and any other meetings requested by the class teachers, support teachers, SENCO or parents. Parents are also encouraged to participate as fully as possible in supporting their child's learning needs and may request additional meetings with relevant staff in order to make this possible.

7. Staff Development

- The Senior Leadership Team takes responsibility for prioritising the training needs of staff.
- The school makes an annual audit of training needs for all staff taking into account school priorities as well as personal professional development.
- Particular support will be given to Early Career Teachers and other new members of staff.
- In keeping with the Code of Practice, the whole staff work as a team to meet SEND within the school.
- In-service training is provided in school by the Inclusion Leader/SENCO, through courses run by the LA, Diocese or the Health Authority (such as the Speech and Language Service) to ensure familiarity with procedures and teaching and learning strategies relevant to groups or individual children.
- The SENCo is supported by LA training, as well as advice from LA Advisory Teachers, the Educational Psychologist and appropriate Health Professionals.

8. Barnet SEND Information, Advice and Support Service (SENDIASS)

Parents of any pupil identified with SEND may contact SENDIASS for independent support and advice.

Barnet SEND Information, Advice and Support Service offers:

- free, confidential, and impartial information and advice
- support for parents/carers of children with special educational needs (SEN) and or a disability.

Information about SENDIASS can be found on the [school website](#) in the SEND Information section.

9. Complaints

Class teachers will work closely with pupils and should be the first port of call in case of any difficulty. Should any parent have cause for complaint regarding SEN provision for their children the following procedure should be followed.

- i. Discuss their concerns with the Class Teacher.
- ii. Discuss their concern with the SENCO
- iii. Attend a meeting convened by the Head teacher attended by the above personnel. In addition, the Educational Psychologist or an LA Advisory Teacher may be invited, if appropriate.
- iv. Attend a meeting with the above personnel and a nominated Governor.

It is intended that resolution will be found at any of the stages, and that concerns will mainly be resolved at stages (i) & (ii), be minuted, and any resolutions also recorded. Following either stage (iii) (iv) or (v) meetings the Head and Inclusion Leader will monitor resolutions and meet with parents at an agreed date to review the effectiveness of provision. Should resolution not be reached, following the above, the school complaints procedure may be followed. This can be accessed on the school website.

10. External support services

These services play an important part in helping the school identify, assess and make provision for pupils with special educational needs.

- The school has regular liaison with and can request assessment and advice from the Educational Psychologist as part of a 'bought in' service.
- In addition, the school may seek advice from the Local Authority's specialist advisory teaching services for children with sensory impairment, physical difficulties, speech and language difficulties or emotional and behavioural difficulties.
- The Speech and Language Therapist assesses and monitors the progress of children with significant speech and language difficulties.
- School may also seek advice and support from other agencies, such as, CAMHS (Child and Adolescent Mental Health Service), Occupational Therapy, Physiotherapy, Paediatricians, The Early Help team or

Social Services (Multi-Agency Safeguarding Hub – MASH). The SENCO/child’s class teacher will work closely with parents at all stages.

- Multi-agency liaison meetings, with representation from, for instance, Social Services, Health and the Educational Psychology Service are held when necessary to ensure effective collaboration in identifying and making provision for vulnerable pupils.
- The school has access to the Education Welfare services.
